

LECTURER / SENIOR LECTURER: MECHANICAL ENGINEERING DESIGN

(PERMANENT POST- TEACHING RICH)

DEPARTMENT OF MECHANICAL ENGINEERING

FACULTY OF ENGINEERING AND THE BUILT ENVIRONMENT

The University of Cape Town is in the top rank of Universities in South Africa, and the Department of Mechanical Engineering endeavours to contribute to this reputation. The faculty is home to cutting-edge and impactful research, offering strong internationally accredited teaching programmes to a diverse student body, and is recognised nationally and globally as a major contributor to the development and transformation of society. This is achieved through world class research in niche areas (e.g., structural impact and materials engineering, computational mechanics and fluid dynamics, energy studies, engineering education, among others), as well as through excellent teaching based on sound pedagogical principles. The Department is well established, internationally accredited, and has historically produced some of the country's most competent mechanical engineers.

The Department of Mechanical Engineering seeks to appoint a permanent, full-time academic at the lecturer or Senior lecturer level in a teaching rich post (no research requirement) to undertake teaching in mechanical engineering drawing and design. We recognise drawing as an essential foundation for our design courses. Candidates with experience teaching engineering drawing are invited to apply for this position. The successful candidate will be expected to contribute to teaching including curriculum review and development of drawing courses, administration, and social responsiveness activities in the Department. We invite suitably qualified persons to apply for this position.

To view and apply for this position, please visit the UCT Jobs site [View](#) (For Internal Applicants) and [View](#) (For external Applicants) to create a profile and to submit your application.

Closing date: 12 April 2025
